Mike Pauley
Cleanups Unlimited, LLC.

To whom it may concern,

I have had a number of jobs performed by Cleanups Unlimited and have always found them to be a business that provides excellent service, competitive pricing and in a very professional and courteous manner.

Their management team has always provided quotes on a timely basis as well as honored every commitment they have contracted to do. Cleanup's has also made many suggestions that I believe have helped my family save money. They have never taken advantage of my lack of knowledge in a particular area to make money; they always strive to make sure you understand completely the task at hand and you feel more than comfortable with the work that will be done.

Cleanups Unlimited does not treat the average individual as just another job or a dollar, everyone is a friend and family member and they make it a point to do an excellent job, that you are more than happy with each and every time.

No matter what the job, big or small, they "including all their employees" treat you like you are the only customer they have. All jobs are done on time and all jobs are left in spotless condition.

Cleanups Unlimited provides more than a completed job; they provide a great service and a comfort zone for all that utilize them. I would recommend Cleanups Unlimited for any job and have done so on many occasions, with total satisfaction from all.

Mike Pauley is a seasoned professional that is knowledgeable in many areas and has proven to be more than just a business associate but a friend as well.
